

EdReady. Set. Go!

A personalized college readiness system to help students avoid the time and cost of remedial courses.

STUDENTS can self-assess for college math readiness, view study options, and follow a personalized study path to fill gaps in knowledge.

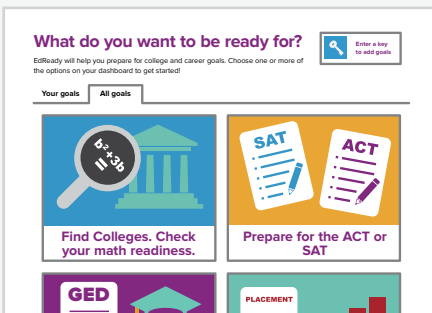

EDUCATORS can see useful data to guide students to success, improve retention, and lay a solid foundation for college completion.

INSTITUTIONS can customize EdReady. Here's how it works...

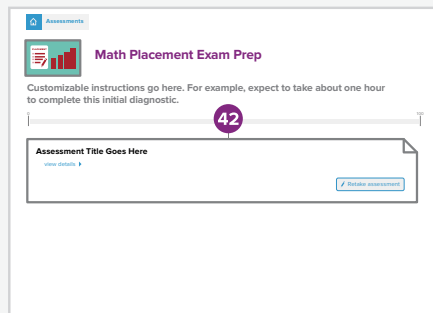

Goals

Each EdReady goal can support a unique, student-focused “readiness experience.” EdReady can accommodate a variety of goals, depending on your needs.

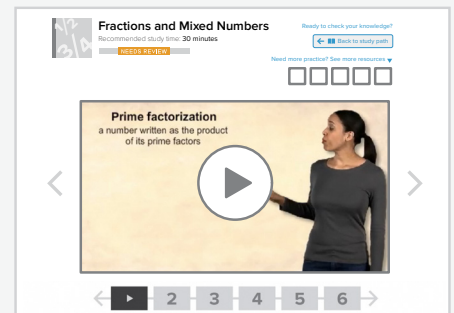

Assessments

You can customize one or more diagnostic assessments to support programmatic needs within a supported scope of learning objectives.

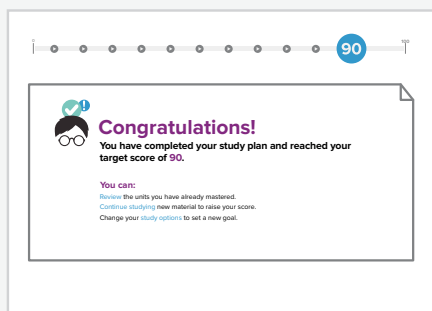

Resources

A personalized study path with topic-specific, media-rich learning resources will guide your students toward their goals. You can choose which curated resources your students will see.

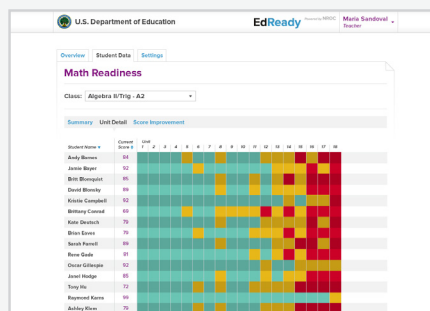

Readiness

As students meet or exceed their target scores, you can direct them toward additional steps they may take on their journey to academic and personal success.

Data Access

You can set permissions for live student data dashboards and downloads for teachers, administrators, and counselors.

EdReady
